Hello Chris,

Thank you for your message. Erin Healy should contact Tim Vendlinski at 415-972-3469 or vendlinski.tim@epa.gov (cc'd on this message) to discuss methylmercury comments EPA made in the 'red flags' review we did for BDCP lead state and federal agencies.

Thanks,
Erin

Erin,

I haven't contacted you before. I am ICF's project manager on preparation of the BDCP conservation strategy.

I am writing in reference to the "red flag" comments on BDCP that EPA provided to Reclamation on April 4. Some of these comments addressed Conservation Measure 13, which concerns methylmercury. My lead author on that measure, Erin Healy, would like to talk to the commenter in order to get clarification

on some of the comments. Could you provide contact information and authorization for Erin to talk to or email the commenter?

Chris
